

OCF's Deferred Giving Program for Endowment Partners

Your nonprofit organization's deferred giving program helps strengthen your current donor relationships while building for the future. OCF is proud to support Endowment Partner organizations by offering life income gifts to their donors that direct the remainder interests to their endowment funds at OCF.

What is a deferred gift?

A deferred gift is any gift that will result in a gift to a nonprofit after a term of years or after the donor's death.

Deferred gifts fall into two broad categories.

Bequests

A bequest, made through a donor's will, living trust or beneficiary designation of a retirement plan or insurance policy, is the most direct form of a deferred gift. Bequests are straightforward to establish, and the estate receives a tax deduction for 100 percent of the value of the gift.

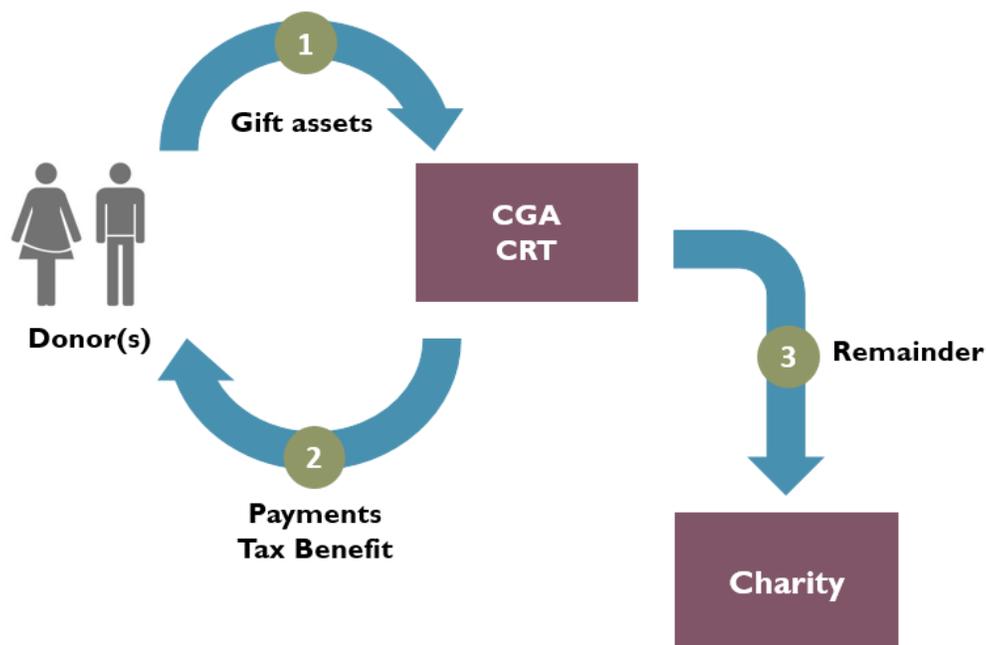

Sample bequest language:

I give, devise and bequeath: [describe assets to be gifted] to [organization name], tax ID #xx-xxxxxxx, an Oregon nonprofit corporation.

Life Income Gifts

Life income gifts are made during the donor's lifetime and provide income to the donor and/or other beneficiary for life. There are two main types of life income gifts: a charitable gift annuity (CGA) and a charitable remainder trust (CRT).

How Life Income Gifts Work

OCF's philanthropic advisors are available to meet with your board or donors, either individually or as group, to discuss how you can encourage your organization's donors to contribute to your endowment, enjoy income for life - or a specified number of years - and obtain an income or estate tax benefit. When the gift matures, all or part of the remaining assets may be directed to the organization's endowment fund at OCF to provide ongoing support for your organization.
